CAREER SUMMARY

Passionate and detail-oriented MERN Stack Developer with a strong foundation in web development. Proficient in creating dynamic, user-friendly, and responsive web applications with expertise in both front-end and back-end technologies. Skilled in developing scalable applications and implementing modern web technologies to enhance functionality and user experience. Currently pursuing a Computer Science degree at SRM University, with hands-on experience in full-stack development. Adept at working in collaborative environments, problem-solving, and continuously learning new frameworks and tools to stay ahead in the fast-evolving tech landscape. Looking for opportunities to contribute technical expertise and creativity to innovative projects that drive digital transformation.

EDUCATION

· **Bachelor of Scince in Computer Science** – Jimma University *(2023–present)*

SKILLS

- Front-End: HTML, CSS, JavaScript, React.js , Bootstrap
- Back-End: Node.js, Express.js, mySql, PHP
- Other Technologies: Git, GitHub, REST APIs, Postman

WORK HISTORY

PRODOGY INFO TECH
Web developer   August 1 - 31, 2024

- · Worked on implementing responsive design principles to enhance user experience.
- · Collaborated with a team to debug and improve existing projects.
- · Assisted in developing and optimizing web applications using web technologies.

PROJECTS

· **Netflix Clone (React):**
A responsive Netflix-inspired streaming platform built with React, featuring user authentication, movie browsing, and trailer previews. Integrated Firebase for authentication and TMDB API for dynamic content.

· **Donation App (React, Chapa Integration):**
A secure donation platform developed with React, allowing users to contribute seamlessly via Chapa payment gateway. Features real-time transaction tracking and a user-friendly UI.

· **Simple E-Menu (React):**
A digital restaurant menu built with React, offering an interactive interface for browsing food items. Includes category filtering, search functionality, and an elegant UI.

· **Weather App (HTML, CSS, JS):**
A minimalistic weather application using vanilla JavaScript, fetching real-time weather data via an API. Displays temperature, humidity, and forecasts with a clean UI.

· **Tic-Tac-Toe App (HTML, CSS, JS):**
A classic Tic-Tac-Toe game built with JavaScript, featuring interactive gameplay and a simple yet engaging UI. Supports two-player mode with instant win detection.

· **Event Registration App (PHP, EmailJS):**
A PHP-based event registration system with secure login/logout functionality. Sends automated email confirmations via EmailJS and manages attendee registrations efficiently.

CERTIFICATE

OF COMPLETION

THIS CERTIFICATE IS PROUDLY PRESENTED TO

Dagim Tamirat

for successfully completing a **1-month** internship from **1st August, 2024** to **31st August, 2024** in **Web Development** with outstanding remarks at Prodigy InfoTech.

Letter of Recommendation

CIN: PIT/AUG24/09562

Date: 01/09/2024

To Whom It May Concern,

I am writing this letter to highly recommend Dagim Tamirat from Jimma University for his exceptional performance and dedication during his tenure as a Web Development intern at Prodigy InfoTech. He has truly impressed me with his strong work ethic, passion, and ability to excel in his assigned tasks.

Throughout his internship, he consistently demonstrated a high level of professionalism, taking initiative, and exceeding expectations. He exhibited remarkable technical skills and a strong understanding of the industry. He tackled complex projects with enthusiasm, displaying great problem-solving abilities and an aptitude for learning.

His attention to detail, creativity, and willingness to go the extra mile set him apart from his peers. Based on his outstanding performance and potential, I have no doubt that he will continue to thrive and make significant contributions in his future endeavours. It is with great pleasure that I recommend him for any future opportunities or positions he may seek.

Best regards,

Deven Chopra
Software Engineering Manager
